## INTRODUCTION

This report presents distributions of the population by five-year age groups and sex according to the 1966 Census of Canada.

Comparative 1966 and 1961 information by five-year age groups and sex for provinces is provided in Table 19. (Historical comparisons for earlier years back to the 1901 Census may be found in 1961 Census Bulletin 1.2-2.) The present report also includes 1966 Census age and sex distributions for: (a) the urban size group, rural non-farm and rural farm components of provinces (Table 20); (b) counties and census divisions (Table 21); (c) municipal subdivisions of 10,000 and over (Table 22); and (d) the component parts of census metropolitan and other major urban areas (Tables 23 and 24). Classifications by single years of age and sex for provinces and census metropolitan areas may be found in Report 1-11 (see back cover). Distributions by selected age groups and sex for municipalities of under 10,000 may be found in Report S-2 of the Special Series of 1966 Census reports.

Age classifications in the census are based on a definition which specifies completed years of age at last birthday prior to June 1, 1966. Definitions of the urban, rural non-farm and farm population are provided in the Introduction to Report 1-8.

Le présent rapport répartit la population du Canada suivant le groupe quinquennal d'âge et le sexe d'après les données du recensement de 1966.

Pour fins de comparaison, les chiffres de 1966 et de 1961 par groupe quinquennal d'âge et suivant le sexe pour les provinces sont donnés au tableau 19. (Des comparaisons chronologiques à compter du recensement de 1901 se trouvent dans le bulletin 1.2-2 du recensement de 1961.) Le présent rapport comprend aussi la répartition par âge et suivant le sexe lors du recensement de 1966 pour: a) les régions urbaines par tranche de taille, les régions rurales non agricoles et rurales agricoles des provinces (tableau 20); b) les comtés et divisions de recensement (tableau 21); c) les subdivisions municipales de 10,000 habitants ou plus (tableau 22); et d) les parties constituantes des zones métropolitaines de recensement et des autres grandes agglomérations urbaines (tableaux 23 et 24). Le classement par année d'âge et le sexe pour les provinces et les zones métropolitaines de recensement paraît dans le rapport 1-11 (voir couverture arrière). La répartition par certains groupes d'âge et le sexe pour les municipalités de moins de 10,000 habitants peut être obtenue dans le rapport S-2 de la Série spéciale des rapports du recensement de 1966.

Le recensement établit les catégories d'âge en fonction des années révolues d'âge au dernier anniversaire de naissance qui précède le 1er juin 1966. Les définitions de la population urbaine, rurale non agricole et agricole se trouvent dans l'Introduction au rapport 1-8.
